English B1 in progress

Pavel Kryvaltsevich

FRONTEND DEVELOPER

Hello. I'm a developer with experience in creating SPA using React, Redux, TypeScript, HTML, CSS and JS. I keep improving my skills and I'm going to study some new technologies such as React Native and Node.js because in the future I want to be a full-stack developer. I improve my English skills in my free time and solve tasks on the codewars. I'm ready to consider project work or full-time. Open to your suggestions.

My Projects as a frontend developer (part-time)

Leoka Elementary Platform, August 2022 - present days.

StarTup. Full Time .

Stack: Angular, Angular CLI, Rxjs,

Development of an educational platform that provides the creation of free webinars and courses. I worked on transferring components from Angular to React, fixing bugs and creating new components, development of modal windows, working with the server
